- 3.6 Delivery of Circuit. Unless specifically stated otherwise in a 46 Labs order form, all loop installs are quoted with delivery to the LEC MPOE. Customer is liable for any loop Demarc Extension from the LEC MPOE. Customer is responsible for ensuring that all Demarc Extensions are completed, ordered and approved by the LEC prior to any local loops

being dropped by the LEC at Customer's MPOE. In the event Customer fails to complete the Demarc Extension or order appropriate Demarc Extensions prior to the LEC's local loop drop, Customer shall be fully responsible for all associated costs as of the date of local loop drop. The Customer will also be responsible for providing any wiring extension beyond the primary MPOE. Customer will be responsible for any additional unforeseen construction costs including, without limitation, inside wiring administration and special installation costs. 46 Labs' Ethernet Service Installation Guide, which can be found at [www.46labs.com/service-terms/](http://www.46labs.com/service-terms/) identifies the Customer requirements necessary for delivery of Ethernet services to Customer premises. Cancellation fees as set forth in the SO shall be applied in the event Customer has not complied with the requirements in the Ethernet Service Installation Guide, or excessively delays installation. 46 Labs will pass through any costs 46 Labs incurs that are associated with extending wiring beyond the premises' primary MPOE. In the event the Customer chooses not to make the necessary upgrades, the Customer shall nevertheless be responsible for all associated cancellation fees. Where applicable, 46 Labs will deliver Circuit Facilities Assignment ("CFA") at the underlying carrier designated building and suite/cage. It is the Customer's express responsibility to order and pay for all in building local loop circuits or cross-connects required to connect Customer's facilities to the underlying carrier assigned CFA.

- 3.7 Expedited Installation. Customer acknowledges that requests and payments for an expedited installation do not guarantee that any third party will meet a requested installation date. Requests for expedited installation may expedite the process by which Customer's order is serviced, but 46 Labs cannot guarantee that any installation will occur by a specified date. 46 Labs cannot refund any payment made for expedited service in the event that an expedited service date is not met.
- 3.8 Service Availability Notice. The Service is available throughout the Term as described in the SLA, except in the case of Scheduled Maintenance of either or both the 46 Labs' network or its underlying carrier's networks. 46 Labs will use reasonable efforts to provide prior notification via electronic mail to Customer regarding any Scheduled Maintenance of the Service. 46 Labs may interrupt its provision of Service for unscheduled emergency maintenance without notice to Customer or Customer's customers. 46 Labs reserves the right to monitor and/or record certain calls for the purpose of quality control or troubleshooting service issues, subject to state and federal privacy laws.
- 3.9 Valid ANI. Where Customer's equipment allows for manipulation or changing of the outpulsed Automatic Number Identification ("ANI") or calling party number ("CPN"), Customer is required to pass a valid originating ANI or CPN that is owned by the Customer. For purposes of this paragraph, "valid" ANI or CPN shall mean ANI or CPN in an industry standard format that correctly identifies the call as originating from the geographic area where the Customer is physically situated.
- 3.10 900, 500, 700, or Invalid Numbers. Customer shall not pass 900, 500, 700, or invalid numbers (including 000-000-0000 as CPN).

- 3.11 Local Number Portability. Because 46 Labs utilizes the LNP, the number dialed by Customer may return porting information which results in calls terminating to different physical locations, OCNs, or LATAs that may vary from the dialed number. 46 Labs does not provide Customer access to the NPAC database. If (a) the Customer's rate plan does not include flat-rate pricing, or (b) for the purpose of calculating high cost area surcharges on flat-rate plans, then calls terminating to ported telephone numbers will be rated based on the ported number information, and not the dialed number. Customers wishing to determine whether a dialed number has been ported prior to dialing must arrange independent access to the NPAC database.
- 3.12 OCN Information. All calls billed under plans other than flat-rate plans will utilize OCN information provided by Bellcore or similar database providers. OCN's are determined by criteria including the NPA/NXX of the number dialed, as well as the NPAC database. 46 Labs shall not be liable for the accuracy of any OCN information, which may be utilized by Customer for any purpose, including but not limited to rating, scrubbing or sorting.
- 3.13 Toll Free Directory Assistance. Upon Customer's written request and to the extent available to 46 Labs, Toll-Free Directory Assistance listing is available for Customer's Toll-Free numbers provided by 46 Labs. Due to the fact that Toll-Free Directory Assistance is provided through an arrangement with a third party, the provision of Toll-Free Directory Assistance by 46 Labs is subject to the policies and procedures promulgated from time to time by such third parties. Customer understands that any Toll-Free Number listed with Toll-Free Directory Assistance is not published in any written directory but is only available on either an online or call-in basis. This service will be charged at such third-party provider's then prevailing rates, which are subject to change without notice at any time.
- 3.14 International Routes. Customer is aware and acknowledges that 46 Labs has no control over the international routes of its underlying providers. Therefore, 46 Labs cannot assure or guarantee calls/voice quality for all international traffic. Customer agrees that all calls completed will be considered valid and billable, regardless of call quality.
- 3.15 Blocking of International Calls. If Customer wishes to block International calls, the Customer must ensure that such request is in writing, in the body of the SO for the services for which International blocking is to be applied. Any such blocking request that is not in writing will not be valid. For the purpose of call blocking, "International" refers only to those calls not destined to the United States or Canada. It is the Customer's responsibility to understand the limits on any call blocking functionality. Any request to 46 Labs to unblock international calls must be in writing.
- 3.16 Internet Services. All Internet services provisioned under this Agreement or any SO are provided as information services, and not as telecommunication services for the purposes of regulation.
- 3.17 Rights to IP Addresses and Circuits. Customer agrees that IP addresses are not guaranteed, transferable or provided for further distribution. Upon termination of the Agreement, any SO, or cancellation of any Service, all rights to circuits ordered on behalf Customer will revert to 46 Labs, and Customer shall have no rights to the continued use of them regardless of provider. 46 Labs does not represent or warrant that IP Addresses used by Customer in conjunction with the Service will be available to Customer after termination or cancellation.

4 911 Services.

- 4.1 Customer must have at least one 911-enabled DID for each location, with that location's correct address populated in 46 Labs' 911 database, for 911 database services to operate properly for DIDs utilized at that location. For 911 service, the Customer will be required to register the physical location of Customer's equipment (desk phone, softphone, video phone or mobile phone) with 46 Labs and agree to call 46 Labs customer service to update the location whenever the physical location of service for a particular telephone number changes. Customer may register only one location at a time. IF CUSTOMER DOES NOT UPDATE THE PHYSICAL LOCATION OF CUSTOMER'S EQUIPMENT INCLUDING DESK PHONE, SOFTPHONE, VIDEOPHONE OR MOBILE PHONE, WHEN IT CHANGES, CUSTOMER'S 911 CALLS MAY BE SENT TO AN INCORRECT EMERGENCY CENTER.
- 4.1.1 FOR USERS OF THE 46 Labs KEY SYSTEM TELEPHONES, TO PRESERVE THE ABILITY OF 911 OR E911 PUBLIC SAFETY ANSWERING POINT ("PSAP") PERSONNEL TO RESPOND PROPERLY, CUSTOMER / END USERS OF THE KEY SYSTEM CANNOT MOVE THEIR KEY SYSTEM PHONE TO ANOTHER STREET ADDRESS DIFFERENT FROM THE STREET ADDRESS ASSOCIATED WITH THE REGISTERED ADDRESS FOR SUCH END USER.
- 4.1.2 IT CAN TAKE SEVERAL HOURS TO ACTIVATE 911 SERVICE AT THE UPDATED ADDRESS. WHEN REQUESTED BY 46 Labs, CUSTOMER SHALL TIMELY COOPERATE WITH 46 Labs FOR THE TESTING OF THE 911 SERVICE FOR THE PURPOSE OF ENSURING THE 911 SERVICE IS PROPERLY WORKING. IF CUSTOMER REFUSES OR DELAYS TO COOPERATE WITH 46 Labs FOR SUCH 911 TESTING, 46 Labs GIVES NO ASSURANCE THAT THE 911 SERVICE IS WORKING OR HAS EVER WORKED, AND CUSTOMER SHALL ASSUME FULL AND SOLE LIABILITY IN THE EVENT THE 911 SERVICE FAILS TO WORK PROPERLY. 911 SERVICE WILL NOT FUNCTION IN THE EVENT OF A CUSTOMER PREMISE OR CARRIER SERVICE OUTAGE OR A POWER OUTAGE. NETWORK CONGESTION OR SIGNIFICANT DEGRADATION OF CUSTOMER'S INTERNET ACCESS OR OTHER TYPES OF ACCESS SERVICE MAY DELAY OR PREVENT COMPLETION OF A 911 CALL. THESE CONDITIONS MAY OCCUR REGARDLESS OF THE SIZE OF CUSTOMER'S BANDWIDTH OR THE NUMBER OF CIRCUITS INSTALLED, AND REGARDLESS OF WHETHER OR NOT 46 Labs IS THE PROVIDER. 46 Labs SERVICES (INCLUDING OR NOT LIMITED TO) INTERNET SERVICE AND/OR MANAGED CONNECTIVITY OR LOCAL T1/PRI SERVICE ARE NOT IMMUNE FROM THESE CONDITIONS. 46 Labs STRONGLY RECOMMENDS CUSTOMER AT ALL TIMES MAINTAINS AN ALTERNATIVE METHOD FOR PLACING EMERGENCY CALLS.
- 4.1.3 Based on the local emergency center servicing Customer's location, such center will operate with either basic 911 or E911 service.
- 4.1.4 With basic 911 service when a caller from the Customer's Registered Address dials the digits 9-1-1, the call is sent to the local emergency center serving the Customer's location. Operators answering the call will not have automatic access to the caller's call-back telephone number or the Registered Address because the emergency center will

not be equipped to receive, capture or retain Customer's assigned 46 Labs telephone number and Registered Address. Accordingly, callers must be prepared to provide both call-back and address information. If the call is dropped or disconnected, or if the caller is unable to speak, the emergency operator answering the call will not be able to call the caller back or dispatch help to the caller's address.

- 4.1.5 As additional local emergency centers become capable of E911 functionalities, 46 Labs will automatically upgrade customers from basic 911 to E911 service. 46 Labs will not notify Customer of the upgrade. With Enhanced 911 service (E911), when a caller from the Customer's Registered Address dials the digits 9-1-1, the 46 Labs telephone number and subscriber's registered address is automatically sent to the local emergency center serving your location. The emergency operators will have access to this information regardless of whether the caller is able to verbally provide such information to the emergency call-taker. Accordingly, with E911 service, the emergency call-taker will have the caller's call-back telephone number and registered address information just by virtue of the caller placing the call using the digits 9-1-1.
- 4.1.6 Some Customers will have the ability to directly update their own E911 location via an online portal. Customer is solely responsible for setting the E911 location accurately to the correct physical location of Customer's equipment (desk phone, softphone, videophone or mobile phone) with 46 Labs.
- 4.1.7 In limited circumstances, Customers equipped with basic 911 or E911 may have their calls routed to the national call center.
- 4.1.8 46 Labs' Service is Internet based and 911 services are different from that of traditional wireline services. Customer acknowledges and agrees to inform all employees, guests, and other third persons who may use the Service of the potential complications arising from basic 911 or E911 dialing and more specifically that basic 911 and E911 services will not function in the case of a service failure for any of the following reasons: (a) the telephone device to which a particular telephone number has been assigned is moved to a location outside the premises where the telephone device was originally installed, the "registered address,"; (b) there is an outage, degradation or other disruption of power at the Customer's location; (c) there is outage, degradation or other disruption of Customer's broadband Internet connection, whether such connection is provided by 46 Labs or another provider; (d) suspension of services due to billing issues; (e) any other service outages not described herein; (f) Customer's failure to provide a correct physical address in the requisite format may cause all basic 911 or E911 calls to be routed to the incorrect local emergency service provider; (g) the 911 or E911 call is routed to a long distance trunk group instead of a local trunk group; and/or (h) if Customer uses the public Internet for voice calls (or voice call signaling), Customer may not be able to access 911 or E911 services. Under any of the circumstances enumerated in items (a) through (h), above, 46 Labs will not be liable for any inability to dial 911 using 46 Labs VoIP services or for the misrouting of any calls made to the PSAP emergency center or to a municipal emergency service providers, and Customer further agrees to defend, indemnify and hold harmless 46 Labs, its officers, directors, employees, affiliates and agents and any other service provider who furnishes services to 46 Labs in connection with 46 Labs' VoIP services, from any and all claims, losses (including loss of profits or

revenue), damages, fines, penalties, costs and expenses (including, without limitation, attorneys' fees and expenses) by, or on behalf of, Customer or any third party or user of 46 Labs' VoIP services relating to the non-availability of 911 dialing. 46 Labs' suppliers will not be liable to Customer for any damages for any reason.

4.1.9 If Customer routes 911 calls to 46 Labs utilizing anything other than 46 Labs 911-enabled DIDs as the source, then Customer is subject to surcharges for the call.

4.1.10 For the PSAP to receive the Customer's correct 911 address information, Customer must route their 911 calls to 46 Labs using DIDs which are assigned by 46 Labs or ported to 46 Labs and set up by 46 Labs as 911-enabled. If Customer routes 911 calls using 46 Labs 911-enabled DIDs to another phone company, then i) the PSAP may not receive the proper address, and ii) that other phone company may charge Customer for such call.

4.2 911 Notice. The following physical notice will be supplied with 46 Labs-supplied VoIP Equipment:

Federal Communications Commission 911 Notice:

911 SERVICE MAY NOT BE AVAILABLE ON THIS PHONE IF: the phone is moved to a location outside the premises where it was originally installed;  
there is a loss of power to the phone;  
or there is a loss of the phone's broadband connection.

4.2.1 Placement. This notice must be placed and remain near the phones used for your 46 Labs VoIP Service. Customer should call 46 Labs for a replacement notice card if Customer loses the provided notice or requires additional copies.

4.2.2 Additional Requirements for SIP Trunking 911. For basic 911 or E911 to be accurately routed to the appropriate emergency responder, the Customer must provide the telephone number ("TN") associated with the SIP trunking service for the registered address, in the 'userpart' of the 'from uri' contained in the SIP 'from' header. The SIP trunk service may not support basic 911 or E911 dialing in the same manner as traditional wireline phone service. Further, 911 or E911 services may not be available for 46 Labs' SIP Trunking products, which are not intended as a replacement for local phone service.

4.2.3 Customer Duty to Inform Regarding 911 and E911 Services. Customer acknowledges and agrees to inform all employees, guests, and other third persons who may use the service that basic 911 and E911 services will not function in the case of a service failure for any of the following reasons: (a) power failures, (b) suspended or terminated broadband service, (c) suspension of services due to billing issues, and/or (d) any other service outages not described herein. Customer further acknowledges that failure to provide a correct physical address in the requisite format may cause all basic 911 or E911 calls to be routed to the incorrect local emergency service provider. Furthermore, Customer recognizes that use of the service from a location other than the location to which the service was ordered, i.e., the "registered address," may result in basic 911 or E911 calls being routed to the incorrect local emergency service provider.

4.2.4 Softphone – E911 Calling Not Available. 46 Labs may make available to Customer a Softphone. Customer will NOT be able to place outgoing calls using the Softphone, including calls made to emergency services through 911, E911 or the emergency

numbers. In addition, even if Customer purchases 46 Labs' separate outbound Softphone service, Customer will NOT be able to make calls to emergency services using E911 services. 46 Labs strongly recommends that Customer has, at all times, access to a standard telephone or a cellular phone to place emergency phone calls whenever 46 Labs' outbound Softphone service is being used.

4.2.5 No 0+, Operator Assisted, or x11 Calling. 46 Labs Services do not support 0+ or operator assisted calling, including, without limitation, collect calls, third party billing calls, 900, or calling card calls. 46 Labs Services may not support 311, 511, and other x11 services in one or more service areas.

4.2.6 Incompatibility with Other Services. 46 Labs Services may not be compatible with non-voice communications equipment, including but not limited to: home security systems; TTY; medical monitoring equipment; TiVo; satellite television systems; PBX; Centrex; other private telephone networks; other broadband services; home networking; or computer modems. There may be other services with which 46 Labs Services are incompatible. 46 Labs does not warrant that the Services will be compatible with all broadband services. Some providers of broadband service may provide modems that prevent the transmission of communications using 46 Labs' Services. 46 Labs EXPRESSLY DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTIES REGARDING THE COMPATIBILITY OF THE SERVICES WITH ANY PARTICULAR BROADBAND SERVICE. CUSTOMER WAIVES ANY CLAIM AGAINST 46 Labs FOR INTERFERENCE WITH OR DISRUPTION OF THESE SERVICES AND EQUIPMENT.

4.2.7 Bandwidth Requirements. For 46 Labs' local SIP services, including Voice Over MPLS for SIP services, the Customer shall be responsible for ordering a sufficient amount of bandwidth to support the desired number of simultaneous calls and permit the applicable audio compression. In the event of insufficient bandwidth, or in the event Customer attempts to place more simultaneous calls over a circuit than what the circuit can support, Customer may experience degraded call quality or unavailable connectivity. 46 Labs' services that utilize VoIP can also be affected by insufficient bandwidth or overutilization.

4.2.8 Porting Numbers. 46 Labs will require a completed and signed LOA for any numbers or toll free numbers the customer wishes to port. In addition, 46 Labs will require a recent, applicable copy of Customer's current phone bill that contains the Customer's BTNs as well as a record of any numbers that need to be ported. 46 Labs shall not be responsible or liable for any claims or damages customer or other service providers' requests for porting of numbers.

4.3 Requested Start Date. 46 Labs will use its commercially reasonable efforts to activate Services by the agreed-upon date. However, 46 Labs cannot guarantee Service activation by a particular date because of reliance on third parties, including Customer, to perform certain tasks and provide certain information before 46 Labs can activate Services. Customer is responsible for canceling any communications services that the Services will replace and for any and all fees related to those services. Customer is advised not to cancel any services until the Customer has received written confirmation that the porting has been successfully completed.

- 4.4 Bandwidth Measurements. There are many types of bandwidth speed tests, including various public speed test websites. These sites are subject to inaccuracy and variable results, and do not provide scientific or reliable data for troubleshooting by 46 Labs. 46 Labs will not accept speed test results from such websites. 46 Labs and its underlying providers will only utilize Iperf or RFC-2544 testing terminating to on-net facilities and are considered industry standards for speed performance testing. With respect to Ethernet circuits, there is an inherent overhead by the nature of the protocol coupled with equipment such as routers, adaptors and connectors, and the industry standard for the usable portion of the bandwidth is approximately 80% – 85% of any given Ethernet bandwidth.

## **5 Billing and Payment Arrangements.**

- 5.1 Form of Invoice. 46 Labs shall send invoices for Services by either email, web portal or surface mail. Any invoice delivered by any of these methods shall constitute a valid bill for Services.
- 5.2 Payment, Due Date.
- 5.2.1 Payment Obligation.
- 5.2.1.1 Services Generally. Customer's obligation to pay for Services and the associated BUC's MRC, NRC and MUCs fees shall begin on the Start of Service Date. For a monthly recurring fee that begins after the first day of the month, such fees will be prorated for the initial billing period. Each month, 46 Labs shall bill Customer in arrears for BUCs and MUCs usage fees, non-recurring and pro-rata monthly fees if any as well as in advance for all applicable third-party services. circuit port, loop and equipment MRC.
- 5.2.1.2 Circuit Services, Customer's obligation to pay for Circuit Services shall begin on the Circuit Start Date. Customer networking issues, whether the result of improper network design, equipment issues, or incorrect information supplied to 46 Labs Communications by or on behalf of the Customer, shall not relieve the Customer of the obligation to pay for the Circuit Services, including circuit fees, beginning on the Circuit Start Date. In the event Customer delays or impedes 46 Labs from expeditiously submitting Customer's order to 46 Labs' underlying carrier, Customer pricing may change, and any pricing change will become effective upon notification by 46 Labs. For MPLS Services, including voice over MPLS, the Customer is required to coordinate with 46 Labs to install the hub site first, with each remote site to follow.
- 5.2.1.3 Underutilization of Broadband Services. Customer understands and acknowledges that 46 Labs' underlying carriers may terminate service on any circuit for underutilization. Customer understands that such termination would in no way affect Customer's commitment to pay for all monthly circuit fees associated with broadband circuits for the entire term of the contract. 46 Labs will provide Customer fifteen (15) days written notice of its underlying carrier's intent to disconnect, and Customer shall have the option of increasing usage to prevent disconnection of circuits, or alternatively accepting disconnection of designated circuits. In the event of disconnection, Customer shall reimburse 46 Labs for any circuit disconnection fees charged by the underlying carrier to 46 Labs.

#### 5.2.1.4 Fees for Excessive Incomplete Calls, Excessive Call Attempts.

- 5.2.1.4.1 Excessive outbound call attempts. If Customer utilizes the 46 Labs underlying network for call termination, Customer may not have an excessive percentage of outbound incomplete calls, as calculated on the basis of total outbound call attempts in a month per unique customer account. An excessive call attempt surcharge of \$0.005 per call will be assessed for all incomplete calls, whether outbound or inbound, deemed excessive by 46 Labs in its sole and absolute discretion. For customers utilizing the 46 Labs network whose total number of DS1 circuits ordered is four (4) or less, including all circuits utilizing the 46 Labs network ordered previously or separately by Customer, the Excessive Call Attempt Surcharge shall not apply until such time as Customer's total number of DS1 circuits utilizing the 46 Labs network exceeds 4. For customers utilizing toll free services, Customer may not have an excessive percentage of inbound or outbound toll-free incomplete calls, as calculated based on total toll free call attempts by end user customers in a month per unique customer account. An Excessive Call Attempt Surcharge of up to \$0.04 per call will be assessed for all toll-free incomplete calls deemed excessive by 46 Labs in its sole and absolute discretion.
- 5.2.1.4.2 AUP Violation. In addition to the fees for excessive use, it will be considered a violation of 46 Labs' AUP if the Customer has an excessive percentage of inbound call attempts.

#### 5.2.2 Prepayment.

- 5.2.2.1 Unless Customer receives credit approval in writing from 46 Labs', the Customer will be invoiced for all MRCs on a prepaid basis. Customer will be billed in arrears for MUCs, NRCs and any pro-rata MRC or MUC. MRCs or MUCs that begin or are terminated between the Start of Service Date and the end of a billing period will be prorated.
- 5.2.2.2 46 Labs may invoice customer in advance for all applicable third-party services fees. Customer shall pay for all Services ordered from 46 Labs, pursuant to the terms and rates set forth in any SO or associated pricing exhibits. Customer shall timely pay the full amount invoiced less any Billing Dispute, even if Customer expects a portion of the invoiced amount to be paid or reimbursed by a future credit.
- 5.2.2.3 Prepayment required. In the event Customer orders any Circuit Services, then the Customer shall provide together with submission of the Order an initial payment equal to the quoted installation fees and one month's MRC for all loops and ports ordered. The amount received shall be applied against the initial installation fees charged on the first month's invoice. The remainder will be credited against customer's last monthly invoice.
- 5.2.3 Liability for Completed Calls. Customer understands that rates to special service numbers and non-US mobile numbers can be significantly higher than landline rates and Customer is wholly responsible for all calls made over their lines. CUSTOMER IS LIABLE FOR ALL COMPLETED CALLS MADE UTILIZING CUSTOMER'S EQUIPMENT, WHETHER AUTHORIZED OR UNAUTHORIZED, AND REGARDLESS OF SUITABILITY FOR CUSTOMER'S APPLICATIONS, AND/OR ANY FAILURE OF OTHER NETWORK ELEMENTS OR SERVICES WHICH MAY IMPACT CUSTOMER'S

ABILITY TO OPERATE. CUSTOMER REQUESTS TO BLOCK INTERNATIONAL SERVICE ON 46 LABS SERVICE ORDERS SHALL NOT RELIEVE CUSTOMER FROM LIABILITY FOR INTERNATIONAL CALLS MADE ON CUSTOMER'S SERVICE. 46 Labs SHALL MAKE COMMERCIALY REASONABLE EFFORTS TO PROCESS SUCH BLOCKING REQUESTS, SUBJECT TO NETWORK LIMITATIONS AND RESTRICTIONS. CUSTOMER SHALL NOT HOLD 46 Labs LIABLE FOR ANY FRAUDULENT CALLS WHICH MAY OCCUR ON CUSTOMER'S SWITCHED, DEDICATED OR CALLING CARD SERVICES, INCLUDING ANY FRAUD RELATED TO UNAUTHORIZED ACCESS OF CUSTOMER'S TELECOMMUNICATIONS EQUIPMENT. ALL INTERNATIONAL AND OFFSHORE CALLS THAT ARE NOT LISTED ON 46 Labs' RATE SHEET FOR THE CUSTOMER ARE BILLED AT FIVE DOLLARS (\$5.00) PER MINUTE. All domestic long distance calls that are not listed on 46 Labs' rate sheet for the Customer are billed at fifteen cents (\$0.15) per minute.

- 5.2.4 30-Day Payment Customers. Payments from Customers who receive written credit approval from 46 Labs' shall be due thirty days (net 30) from the date of the invoice. Undisputed amounts which are not paid in full within thirty (30) days of the invoice date will be past due and subject to an additional fee equal to the lesser of one and one half percent (1.5%) per month late payment fee or the maximum monthly rate permitted by law on past-due balances. In the event of non-payment of any past due invoice due or a material breach of this Agreement, including, but not limited to access arbitrage or fraudulent use of services, all outstanding invoices, including any unbilled usage shall become immediately due and payable, and Customer shall be considered in default.
- 5.2.5 Customer shall be considered in default of the Agreement and all outstanding invoices and fees, including any unbilled Monthly Usage Charges shall become immediately due and payable.
- 5.2.6 Rounding. Unless otherwise stated in a SO, fees for Services shall be rounded up to two digits per call to the next cent. By way of example, a cost calculated to \$1.214 would be rounded to \$1.22.
- 5.3 Credit Information. Customer agrees that 46 Labs may request credit information from third parties, and Customer authorizes the release of such information as part of this application.
- 5.4 Forms of Payment. Acceptable forms of payment include ACH, eCheck, credit card and wire transfers. Payment by paper check or cash is not acceptable. 46 Labs may, in its sole discretion, accept payment by credit card. A Credit Card Surcharge will be applied to the total amount paid using a credit card. Customer's sole recourse for disputed fees shall be as outlined in Section 7. If Customer pays 46 Labs by credit card then Customer's continued use of Services after Customer's payment to 46 Labs appears on Customer's credit card account, shall be construed as Customer's acknowledgement of the validity of such undisputed fees. Thereafter, Customer waives all rights to reverse such fees and shall be responsible for all expenses and fees 46 Labs incurs for contesting an attempt to reverse the fees.
- 5.5 Taxes, Surcharges and Other Service Related Fees.

- 5.5.1 Customer's obligation to pay applicable taxes, cost recover fees, set-up fees and all other fees due and owing for Service shall survive the expiration of the Agreement. 46 Labs' surcharges are listed at [www.46labs.com/service-terms/](http://www.46labs.com/service-terms/).
  - 5.5.2 Taxes. Service fees are exclusive of all taxes, fees, tax-related surcharges and tax-like surcharges as enumerated below. Customer shall be responsible for, and must pay, all taxes, including, without limitation, sales, use, excise, gross receipts, value added, access, bypass, franchise, telecommunications, consumption and other taxes, fees, duties, charges or surcharges, roaming charges, however designated, and imposed directly on 46 Labs based on the provision, sale or use of Service. If Customer believes it, or the Services it receives and uses, are exempt from any tax, Customer will provide 46 Labs with a properly executed Tax Exempt Document in a form acceptable to 46 Labs that evidences the exemption claimed. Customer shall renew such certification annually and shall provide evidence of such continuing certification upon request by 46 Labs. In the event Customer fails to renew its tax-exempt certification, or if its tax-exempt certification is repealed, Customer shall be responsible to 46 Labs for all such taxes from the date Customer's tax-exempt certification became invalid. Tax exemption will only apply to Taxes incurred after the date 46 Labs receives the updated Tax Exempt Document
  - 5.5.3 Cost Recovery. 46 Labs may impose recovery fees in order to recover costs associated with regulatory compliance, administrative and network facilities costs.
  - 5.5.4 Set-up, Installation and Disconnect Fees. Customer shall pay all applicable inspection, repair, set-up, Demarc extension, installation and disconnect fees, service upgrade or relocation fees, which will be invoiced on a Non-Recurring Charge basis and are non-refundable. Quoted installation fees contemplate installations in normal locations under normal working conditions during regular business hours. Any installations under other circumstances including, but not limited to, hazardous locations, on an expedited basis outside of standard installation intervals will be subject to additional fees.
  - 5.5.5 Third Party Service Charges. If an entity other than 46 Labs imposes fees on 46 Labs in connection with the provisioning of Service to Customer such fees will be invoiced by 46 Labs on a pass-through cost basis.
  - 5.5.6 Effect of Termination. If service is terminated for any reason, Customer will pay 46 Labs for (a) Services that Customer has used through the date that 46 Labs or Customer terminates the Services, (b) any outstanding balance for NRCs or MUCs, and (c) all fees that may still be due or may be incurred for early termination including ETL. Customer's obligation to pay applicable taxes and all other fees due and owing for Service shall survive Termination.
- 5.6 Early Termination Liability. Except as may be mutually agreed upon in writing in the event Customer terminates the Service or the Agreement or any SO is after submission but before the end of the applicable term, the Customer shall pay to 46 Labs on demand, as liquidated damages and not as a penalty, an Early Termination Liability fee. In the event of Customer's early termination, 46 Labs' actual damages would be impractical and/or extremely difficult to ascertain, so the parties agree the ETL set forth above is a reasonable estimate of actual damages. With respect to Customer terminating the

Agreement after the submission of paperwork but prior to the Start of Service Date, the number of months remaining in the term shall be the total number of months for which the Customer has contracted. Assessment of an ETL does not relieve Customer of Customer's obligation to pay any non-recurring fees or any undisputed past due fees and interest thereon.

- 5.7 Recovery of Collection Costs. Unless otherwise prohibited by law, Customer shall reimburse 46 Labs for any costs incurred by 46 Labs in undertaking any collection activity, including, but not limited to, the reimbursement of reasonable attorneys' fees. Reasonable attorney's fees shall include the time and costs associated with 46 Labs' in-house legal staff efforts related to the collection activity. For purposes of calculating the time and costs, the Parties stipulate that 46 Labs' in-house legal staff's time shall be billed at \$250.00 per hour.
- 5.8 Right of Offset. If Customer defaults on any payment obligation owed 46 Labs under any agreement for more than thirty (30) days and 46 Labs has funds that are owed the defaulting Customer, 46 Labs may offset that which it is owed by first applying such funds to the full balance due by the defaulting Customer. Any amount remaining following the offset shall be remitted to Customer in the normal course of business.  
No Rollover. Unused Monthly base capacities for all services, including but not limited to minutes or text bundles, do not rollover into subsequent months.
- 5.9 Call Rating.
  - 5.9.1 Local Voice Service Rating. Call Rating: Calls will be rated as local calls if they are terminated within subscriber's local calling area associated with the call's originating ANI which must be a 46 Labs assigned DID. All non-Local Toll Calls and non-Local Voice Calls shall be rated as either intrastate, interstate, or international long distance.
- 5.10 Long Distance Call Rating. Long distance calls will not be rated as local calls. Long Distance Calls shall be rated as one of the following:
  - 5.10.1.1 Intrastate which are calls originate and terminate in the same US state within the contiguous 48 U.S. states;
  - 5.10.1.2 Interstate which are calls that originate and terminate in different US States within the 48 contiguous U.S. states;
  - 5.10.1.3 offshore which are calls that terminate or originate in the United States territories, Alaska or Hawaii, with the alternate leg originating or terminating within the contiguous 48 U.S. states;
  - 5.10.1.4 international which are calls originate from and/or terminate into a country other than the United States and its territories.
- 5.10.2 Indeterminate are calls that do not meet one of the prior categories and will be rated at the higher of the intrastate or interstate rates.
- 5.10.3 These rating categories only apply if a valid NADP telephone number appears in the originating ANI and terminating ANI provided in the call signaling with respect to any US call.
- 5.10.4 Local Call Rating Exclusion: Rating outbound calls as local only applies to calls that utilize DIDs assigned by 46 Labs or that have been ported to 46 Labs' service as the originating ANI. Termination of calls from DIDs not provided by 46 Labs or ported to 46 Labs' service will be rated as either Interstate or Intrastate long distance. This distinction

of inter versus intrastate long distance will be determined based on the originating and terminating ANI provided in the call signaling. If 46 Labs cannot accurately rate a call due to an invalid or omitted originating ANI, and its rating jurisdiction is not international, 46 Labs will default to rating the call at the prevailing intrastate long distance rate.

- 5.10.5 Toll Free Pricing Requirement. For the Customer to obtain the pricing of toll free calls set forth in a Service Order (a) all associated DIDs to the toll free numbers must be ported to 46 Labs Communications or (b) 46 Labs must assign the associated DIDs, otherwise a higher switched rate will apply for toll free minutes.
  - 5.11 Call Jurisdiction. For purposes of determining call jurisdiction, 46 Labs uses the originating and terminating ANIs provided in the call signaling. 46 Labs utilizes the value in the 'FROM' field in the SIP header as the originating ANI for establishing the jurisdiction of the call. However, in the event a value is present in any of the SIP header fields used for caller id (e.g. Remote Party ID, P-Assert-Identity) 46 Labs may use this in lieu of the "FROM" field as the originating ANI to determine the jurisdiction of a call. If 46 Labs cannot accurately rate a call due to an invalid or omitted originating ANI, and its rating jurisdiction is not international, 46 Labs will default to rating the call at the prevailing Intrastate long distance rate.
  - 5.12 Carrier Determination. 46 Labs will determine the originating or terminating carrier by evaluating the terminating ANI down to the NPA-NXX-X level.
  - 5.13 Originating ANI Required. Customer is required to maintain the originating ANI for all outbound calls and abstain from any level of ANI manipulation in the call signaling.
6. SIP Trunk Services: Requirements and Limitations.
    - 6.1. Description of Services. A full description of 46 Labs' Sip Trunk Services is available at [www.46labs.com/service-terms/](http://www.46labs.com/service-terms/).
    - 6.2. 46 Labs' DID Required. Only telephone numbers or toll-free numbers provided by 46 Labs or ported to the 46 Labs network can be used in conjunction with this service. Outbound local, 911, outbound 800 calls or 411 calls are only available if the call's originating ANI is a 46 Labs assigned DID or DID that has been ported to the 46 Labs network. Any Number shall be leased and not sold. Customer will not use the Number with any other equipment without the express written permission of 46 Labs. Except for Ported Numbers, 46 Labs' reserves the right to change, cancel or move Numbers in its reasonable discretion. Upon termination of the Service and at Customer's request, 46 Labs' will employ commercially reasonable efforts to assist Customer to move the Numbers and the Ported Numbers on behalf of Customer. 46 Labs' will charge a port out fee of \$5.00 per Number or Ported Number. Customer acknowledges that the porting of all Numbers and Ported Numbers is dependent upon the cooperation of third parties not under the control of 46 Labs or its affiliates.
    - 6.3. Other SIP Trunk Service Requirements and Limitations. All special configurations are subject to 46 Labs' approval and 46 Labs reserves the right to terminate this agreement where proper interoperability testing has not been completed when required. Any traffic deemed to jeopardize the integrity of 46 Labs' network may be blocked by 46 Labs. 46 Labs SIP Trunk Service may not be compatible with all non-voice equipment, including but not limited to home security systems, TTY, medical monitoring equipment, certain

versions of TiVO, satellite television systems, PBX, Centrex, other private telephone networks, or computer modems. The Customer waives any claim against 46 Labs for interference with or disruption of these services and equipment, as well as any claim that 46 Labs is responsible for any disruption to Customer's business, if applicable. If Customer uses public broadband or Internet access, 46 Labs does not warrant that SIP Trunk Service will be compatible with all broadband services and expressly disclaims any express or implied warranties regarding the compatibility of 46 Labs SIP Trunk Service with any particular broadband service.

## **7. Billing Disputes.**

7.1. Customer Obligation. Any invoices issued to Customer shall be deemed correct and binding on the Customer unless Customer files a dispute according to the provisions of this Section 7. Customer shall timely pay the full amount invoiced subject to Billing Disputes described in this Section 7, even if Customer expects a portion of the invoiced amount to be paid or reimbursed in the future by a third party. Customer shall also pay any repair, telephone charges and fees for inspection, installation or repair of wiring performed on Customer's premises for the additional fees set forth in the Customer Policies.

7.2. Requirements for Valid Dispute. An invoiced fee will be deemed disputed by Customer if, and only if: (a) Customer believes in good faith that the fee was invoiced in error; (b) Customer provides 46 Labs written notice of the disputed fee no later than ten (10) days from the date of the invoice on which the fee first appeared; and (c) Customer's notice of the disputed fee includes the amount of the disputed fee, the reason the fee is disputed, and documentation supporting the dispute, and (d) Customer provides all documents supporting each dispute. Customer shall not have the right to withhold any amount not properly disputed. If Customer does not dispute fees on the invoice within ten (10) days from the date of the invoice, then the invoice will be deemed to be correct.

7.3. Resolution of Disputed Fees. 46 Labs shall have the right to determine, in good faith, the merit of each dispute and Customer's associated payment obligation. 46 Labs will investigate all billing disputes and notify Customer in writing that: (a) a credit will be issued to reverse any amount that 46 Labs determines was incorrectly billed, or (b) 46 Labs has determined that the disputed was invoiced correctly. After a billing dispute is resolved, if the dispute is resolved in 46 Labs' favor, Customer will, within five (5) business days of such resolution, remit to 46 Labs any required payment, plus interest at the lower of one and one-half percent (1.5%) per month or the maximum rate permissible under applicable state law, calculated from the due date until the date payment is received by 46 Labs. Failure to pay such amount in full within such five (5) day period shall be a breach of the Agreement and shall entitle 46 Labs, in addition to its other remedies at law or equity, to terminate all Services to Customer without notice and without liability of any kind or amount. If the dispute is resolved in Customer's favor, and Customer withheld payment of the disputed amount, then 46 Labs will issue a credit to reverse the amount incorrectly billed. If the dispute is resolved in Customer's favor and Customer previously paid the disputed amount, then 46 Labs will issue a credit to reverse the amount incorrectly billed and apply such credit against Customer's next invoice(s). If Customer is no longer being invoiced by 46 Labs, 46 Labs will remit to Customer the amount of the credit within forty-five (45) days of the date of such credit.

No waiver of any provision of this Agreement, or any rights or obligations of either Party under this Agreement, shall be effective, except pursuant to a written instrument signed by the Parties waiving compliance, and any such waiver shall be effective only in that specific instance and for the specific purpose stated in such writing.
